Harrimans Solar Recognized as a Top Solar Contractor in Venice, Florida

The Solar Power World Top Solar Contractors list includes Venice-based solar firm

Venice, FL - Coming off the biggest year ever for U.S. solar installations, local installer Harrimans Solar is proud to be named one of the top solar contractors in the United States by [Solar Power World](#) magazine. Harrimans Solar achieved a rank of 292 out of 500 solar companies nationwide.

The Top Solar Contractors list is developed by Solar Power World to recognize the work completed by solar contractors across the United States. Produced annually, the Top Solar Contractors list celebrates the achievements of U.S. solar developers, subcontractors and installers within the utility, commercial and residential markets. The list was released on July 25.

“The 2017 Top Solar Contractors list features 500 of the best solar contractors in the United States,” said Kelly Pickerel, managing editor of Solar Power World. “From solar hotbeds on the coasts to the up-and-coming Midwest solar market, every installer adding even the smallest solar array to the grid is making a positive impact on our communities. We’re proud to recognize these companies and their efforts to bring solar power to U.S. homes and businesses.”

The U.S. solar market installed more than 14,700 MW of solar in 2016, nearly doubling the capacity installed in 2015. For the first time ever, solar was ranked as the No. 1 source of new electric generating capacity additions brought online throughout the year. GTM Research and the Solar Energy Industries Association (SEIA) predict the cumulative U.S. solar market to nearly triple in size over the next five years. By 2022, more than 18 GW of solar photovoltaic capacity will be installed annually, and Harrimans Solar will continue to be a major player in adding solar to the grid.

Harrimans Solar employs 15 workers, who installed 1,533 kW of solar in 2016. Since its founding in 1969, the company has installed 5,086 of solar. The company is the premier solar installation/service company in Southwest Florida. With a proven track record of 47+ years in business — and 20,000+ customers — as licensed, state certified commercial and residential solar and electric contractors, Harrimans Solar have the experience and knowledge to assist clients with all their solar needs. Thomas Harriman, President, “We are thrilled to once again be named as a Top Solar Contractor. Our team works endlessly to ensure 100% Homeowner Satisfaction with every installation and service call, and the results are clear that we’re achieving that goal. We look forward to being named as a Top Solar Contractor for many, many years to come.”

About Solar Power World

Solar Power World is the leading online and print resource for news and information regarding solar installation, development and technology. Since 2011, SPW has helped U.S. solar contractors—including installers, developers and EPCs in all markets—grow their businesses and do their jobs better.
